

LIST OF INGREDIENTS AND UNIQUE SELLING POINTS C3-OPTIMUM PRODUCTS

Notice REACH

If a safety data sheet does not list ingredients of a product, there is no obligation to disclose / list them. These ingredients are present in such a low percentage that they do not cause any danger to humans, materials and the environment. Listing these low percentages of ingredients is voluntary. In the Appendix, we have compiled a list of ingredients between 0.01% and 0.4% for C3-OPTIMUM products. This inhalation list applies to all C3-OPTIMUM products, including C3-OPTIMUM Daily which is supplied as a concentrate.

List of ingredients

SODIUM GLUCONATE
SODIUM METASILICATE
ALCOHOLS,C7-21 EXTOXYLATED
TETRASODIUM GLUTAMATE DIACETATE
TRIDECETH-12
SODIUM GLUCEPTATE
POLYALKYLAMMONIUMSALT
SODIUM HYDROXIDE
2-PROPYLHEPTANOETOXYLATE
TRIETHOXYCAPRYLYLSILANE
FATTY ACIDS, COCO, REACTION PRODUCTS WITH DIETHYLENTRIAMINE AND SOYA FATTY ACIDS ETHOXYLATED,CHLOROMETHANE-QUATERNIZED

The ingredients listed have a percentage between 0.01% and 0.4%. The ingredients listed may vary from one C3-OPTIMUM product to another. Ingredients with lower percentages are omitted, no fossil ingredients present.

Unique selling points

- ✓ Up to 10 times less chemicals required for a clean result
- ✓ Bio-based/natural raw materials (chemistry is always necessary because natural raw materials have to be processed > for example: olive oil soap is not olive oil, but olive oil with sodium hydroxide to saponify the oil)
- ✓ No fossil ingredients
- ✓ 2-1 effect (simultaneously clean and protect in one operation > this safe working time)
- ✓ Some of the ingredients adhere to the surface , creating a smooth and dirt-repellent effect (dirt-repellent and protective effect)
- ✓ If C3-OPTIMUM is diluted with water, the waste water contains a maximum of 0.03% chemicals after cleaning. (For C3-OPTIMUM Daily: 2% in a bucket of water)
- ✓ In many situations, cleaning is possible without adding additional water > "Dry cleaning" only with a spray or a combination of spray and damp sponge/cloth. Advantages: no product loss, practically no water consumption and no waste water
- ✓ The coarsening, scaling and discoloration of surfaces by cleaning with C3-OPTIMUM is delayed/prevented because there is no negative influence of (high percentage) aggressive chemical solvents.
